

Living Things

The Characteristics of Living Organism

Living things need food and water

breathe

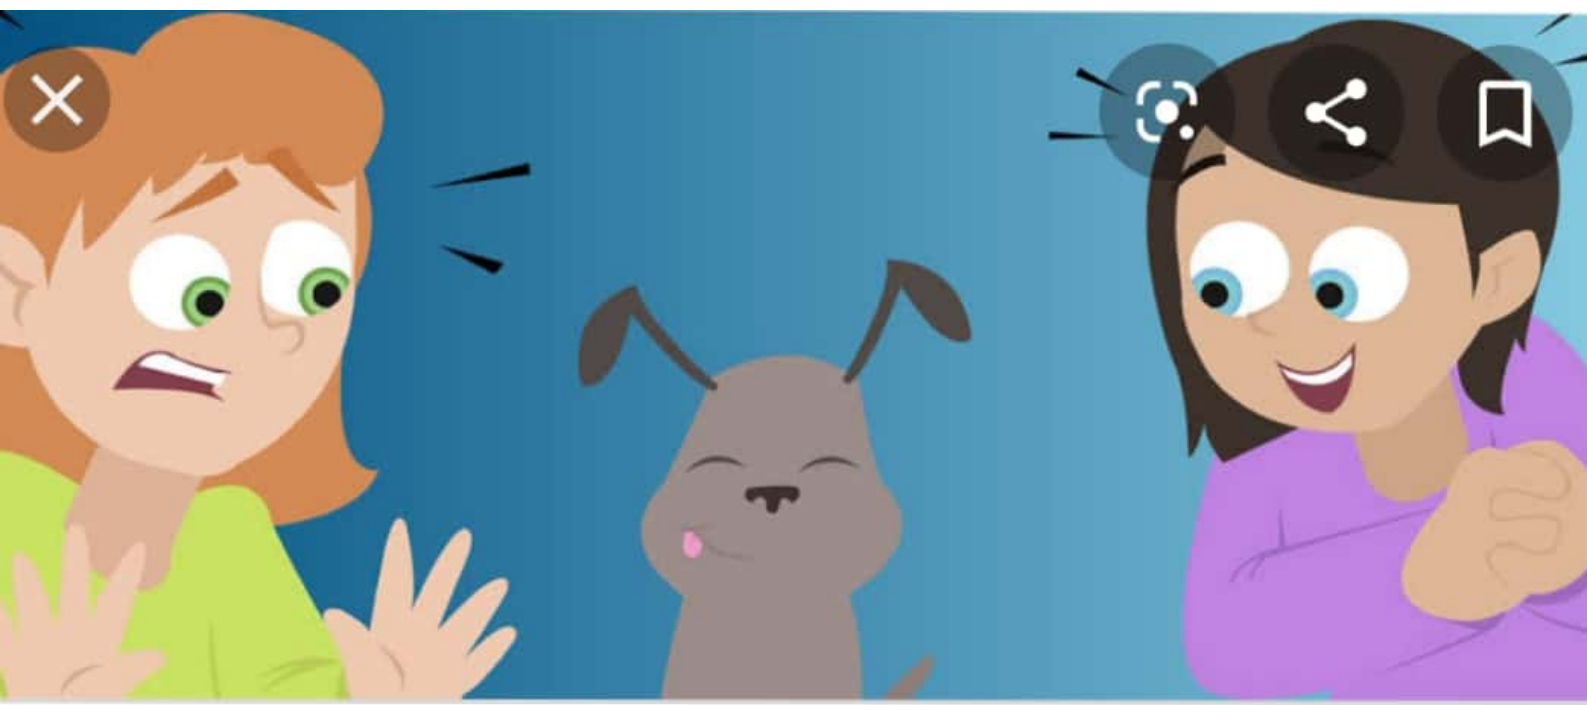

air

Living things Throw out Waste Material

sweat as waste material from our body.

Living things move on their own.

The size of living things changes as time goes by

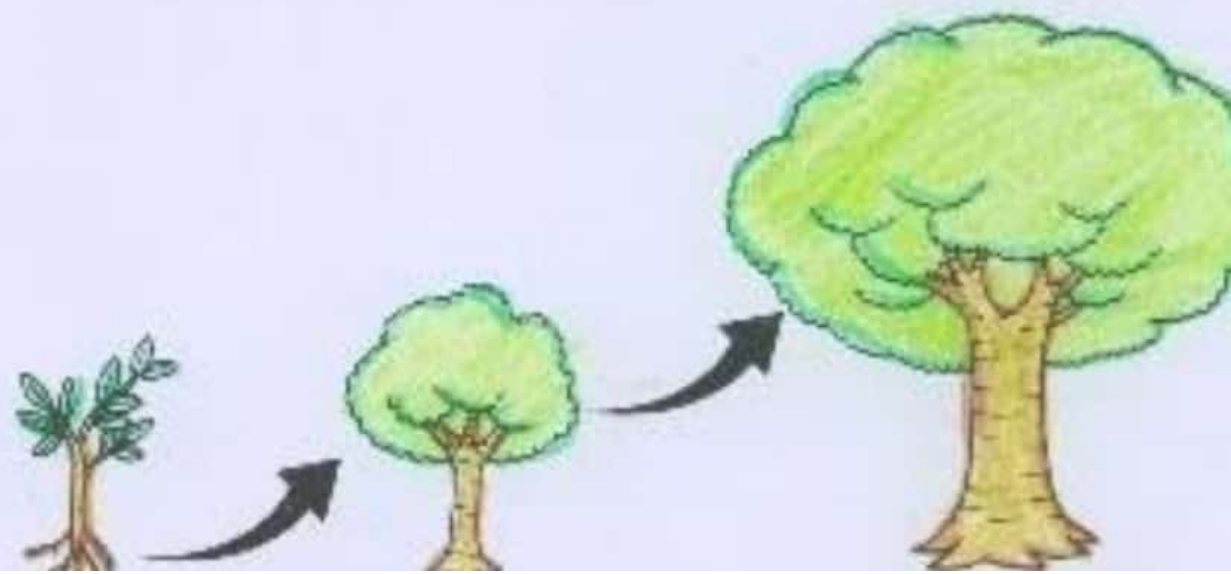

human

animal

plant

A blue banner with a sun, clouds, and a tree. The sun is yellow with rays, the clouds are white, and the tree is green with red fruit. The text "All living things reproduce" is written in a white, cursive font.

*All living things
reproduce*
